All our products are inspected, tested and certified by SGS Laboratories.

European standard EN 71 specifies safety requirements for toys. Compliance with the standard is legally required for all toys sold in the European Union.

All our products only use FSC certified wood, so eco- and environment friendly!

Our products are conform with health, safety and environmental protection standards for products sold within the EU.

A suitable play area for your daycare facility

THERE'S NOTHING MORE BEAUTIFL AND POWERFUL THAN A PLAYING CHILD

Parents want to bring their children to the daycare facility knowing that they are safe, well cared for and where they can enjoy themselves. That's possible with an IKC play area. When designing our products, fun and safety for the child are key.

LET CHILDREN PLAY AND MOVE SAFELY

We make play corners where children learn, develop and are challenged to move. Thanks to the materials and production techniques we use, our products will last many years. From design to installation, we keep the optimal hygiene aspects well in mind. In addition, we always make sure that the play concepts don't contain any loose parts. This makes it easier to clean, but it is also safer for the children. Our products are all SGS certified according to the EN-71 safety standard.

"We asked IKC to bring the experience of the beautiful outside world inside. We are very satisfied with the result, they did it!"

- Sjoerd Siemerink, owner of the nursery Bloesem

Why together with IKC?

THE POWER OF PLAYING BY IKC

Our goal is to turn every organisation into a child friendly environment. By combining our knowledge and love for the way children play, we create powerful products that transform any room into a child friendly place.

The goal of our creative and challenging kids play areas is to enable children to feel comfortable and enjoy themselves endlessly.

SAFE, FAIR AND SUSTAINABLE IS OUR MIDDLE NAME

Especially when it comes to children playing. We have mapped our footprint and are working to reduce it as much as possible. That is why we use materials that are safe, durable and don't cause any damages to the environment. This will not just benefit the playing children now, but also in the future.

FROM DESIGN TO INSTALLATION

We control the entire supply chain, from design to installation. With headquarters in the Netherlands and Shanghai China and a factory in Jiaxing China, we serve customers all over the world.

Our full-service philosophy:

- Extensive advice.
- Choice from our collections.
- A custom design.
- Complete installation, maintenance and broad warranty.

A BETTER WORLD BECAUSE OF HAPPY CHILDREN

By combining our knowledge and love for the way children play, we create powerful products that transform any daycare facility into a child friendly environment. The goal of our creative and challenging play concepts is to make children learn in a playful way and to make them feel good so that they can be themselves.

SUSTAINABILITY AND SAFETY STARTS WITH MATERIALS

Only the best woods, paint that leaves no chemical traces, as little as possible plastic and as much recycling as possible.

Our sustainable play concepts:

- Only use the best types of FSC certified wood.
- Complies with the EN-71 safety standard.
- Only use paint without any chemical traces.
- Avoid using plastic as much as we can.
- Recycle as many products as we can.

DO YOU WANT A CHILD FRIENDLY ENVIROMENT?

Whether you have a lot or little space, a large or small budget: creating play value is always an option. We have been providing play value to daycare facilities all over the world for years.
