A kids' corner which perfectly fits your design

ATTENTION FOR CHILDREN PAYS OFF

Including play value in the design process ensures perfect integration and ultimately a higher turnover for your customers. By placing a play corner, parents with children feel welcome. Other visitors see satisfied and happy children which gives them a positive experience and return more often.

COMBINING OUR KNOWLEDGE WITH YOUR EXPERTISE?

By working together on play value, we can design the perfect play area for children within your project. We can supply you with 3D models of our products, which you can use to draw a play corner. A play corner can be designed in any desired style, but can also be assembled from our existing collections.

“The kids' corner offers a great solution for parents who like to shop and browse at their ease.”
