# Airhockey

Air hockey is a fun recreational game for young and old. In this very fast game, which requires good responsiveness, 2 players play against each other. You play with a puck on a smooth surface and you must try to score a goal against your opponent. This variation of the game is very similar to the game with sticks and puck on the ice. The action-packed digital game is full of fast movements and lightning-fast changes of direction. It also requires a lot of concentration and skills to score a goal successfully.

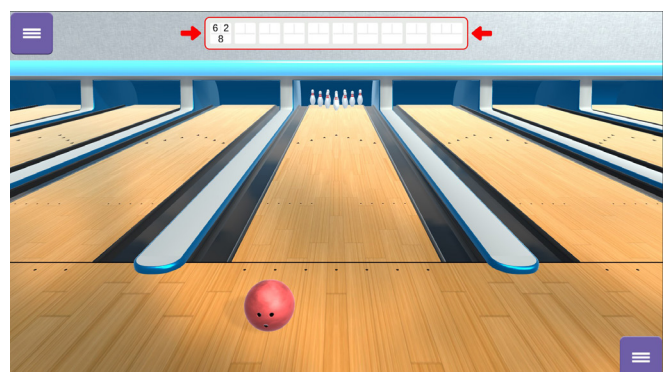

# Bingo

Bingo is a game which can be played by several players at the same time. Bingo is a game of chance and is played by crossing off numbers on a bingo card. This is done by crossing off numbers which are shown by drawing balls. First to complete the card? Then you can shout 'Bingoo' loudly. A false Bingo? That means you have to sing!

# Bowling

Bowling is the ultimate family game and can be played by 1 to 4 people. Tap the ball and drag it backwards for extra speed. When the desired direction is found, swipe the ball towards the pins. You can throw 2 times per turn. The ball can be thrown in different directions. Get the most points by hitting as many cones as possible!

**TUV SGS** All our products are inspected, tested and certified by SGS and TÜV.

## Clean up

CleanUp is a game to raise children’s awareness of the environment and can be played by 1 to 4 people. Place the pawn on a number, to clear the waste. Tap the dice to throw the same number as in the box. All players must place their pawn on a box and try to throw the correct number of points.

## Connect four

Get 4 of the same colour in a row! This game is to be played with 2 players. The first chip is above the board! Tap it, hold it and drag it to the desired row. When you release the chip, it falls down.

## Curling

This game is played with 2 players. Each player has 5 stones. Tap the stone and swipe it to the middle of the board. Try to get as many stones on the centre spot as possible before you run out of stones. The opponent’s stones can be knocked off. Points are awarded to the stones on the centre spot at the end of the game.

**TÜV SGS** All our products are inspected, tested and certified by SGS and TÜV.

## Darts

In darts, you start with 501 points; the first person to get all the points down to 0 has won. Different points count in the different boxes. The bullseye counts as 50 points, the bull, the green ring around it is worth 25 points. There are numbers on the outer ring. If you throw in a big square in the row of the 20 for example, then you get 20 points. If you throw in the middle triple ring, you get 60 points and if you throw in the ring closest to the 20, then it counts double. You will then get 40 points. Tap a dart to start. To make it more difficult, the dart will move, just like a hand in real life. The most points you will get at the triple 20, 180 points! Finish with a dart in 1 single box and 1 double box.

## Drawing

Bring out the artist in yourself and make the most beautiful drawings! Choose a colouring picture of your choice and start colouring. At the side of the screen you can choose the colour. Swipe your finger across the screen to apply the colour. You can also choose a blank page to draw yourself. Have fun!

## Find and connect

This game is for one player or together. Choose a picture to start! There are several objects hidden in the picture. The objects on the side can all be found in the picture. Put a pen in a hole on the side of an object, the other pen goes into the hole near the object in the picture. Once all the objects in the picture have been found, the puzzle is solved!

## Growing

This game can be played by one player or together. In the pot is a picture of the kind of flower that comes out. First put the different coloured seeds in the pot. The colours can also be mixed for a surprise effect! Then the seeds need water! When they are fully grown, they can be cut. Are you a gardener? Grow the most beautiful flowers in this game!

## Jigsaw

These puzzles can be solved by one player or together. You can choose between 6 different sizes. The larger the puzzle, the smaller the pieces and the more difficult the puzzle will be to solve! Make sure that the pieces are placed correctly so that the puzzle becomes one piece.

## Ludo

This board game can be played with 1 to 4 people, or against the computer. If you throw 6 dots, by tapping the dice, you may begin and a pawn can be placed on the board! You land on a space with a pawn of a different colour on it, this pawn will move back to its starting space. Make sure that all pawns are placed in the correct order on the coloured home squares. The first one must be at the top and so on. When you hear the music, you are in the right place! The player who is first to move all his pawns into the home squares wins!

**TÜV SGS** All our products are inspected, tested and certified by SGS and TÜV.

# Mastermind

In this mind game, you have to crack the code! Place the coloured pins in the desired position per row. All colours can be placed once per row. White and red pins appear at the top. The red pins represent the correct position and the white pins the correct colour. Guess which colours are correct and solve the puzzle! There are 8 attempts to solve the puzzle!

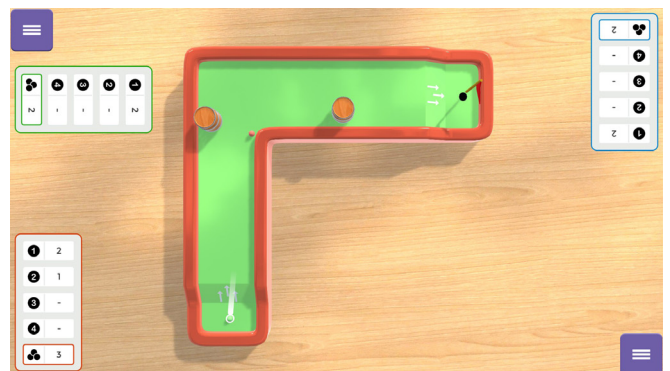

# Memory

With Memory, you can choose between a game against the computer, or a game with 2, 3 or 4 people. There are two levels of difficulty. In the easy version there are 16 pictures and in the difficult version there are 30 pictures. Find and collect as many of the same pictures as possible.

# Minigolf

Tap the golf ball, the white line that can be seen indicates the direction the ball is going. Swipe your finger backwards to set the speed. The arrows on the course indicate the height, will there be a hill or a valley? Try to get the ball into the hole in as few moves as possible. Avoid obstacles and get the most points!

**TUV SGS** All our products are inspected, tested and certified by SGS and TÜV.

## Musicmaker

This game can be played by one player. There are several musical instruments. Tap on a musical instrument to hear the music.

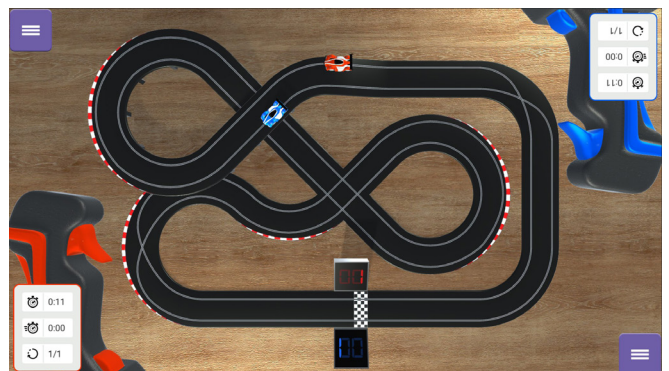

## Pool

Pool is a game that everyone knows! Use the cue and the white ball to punch the coloured balls into the holes. Tap the white ball and drag the cue backwards. The farther back you drag it, the faster the ball will roll. If a whole coloured ball is hit into a hole first, then the whole balls are for that player. This player must play all these balls away. Once a ball has been cleared, the same player can play again. But watch out! Did you play the black ball? Then the game is over and your opponent wins.

## Racing

This racing game can be played by 1 or 2 players. Tap the joystick to drive the car. But beware, don't drive too fast in the curves or the car will fly out of the curve! Drive 3 laps as fast as possible and set the fastest time!

**TUV SGS** All our products are inspected, tested and certified by SGS and TÜV.

## Recycling

Recycling is a game that makes children aware of the separation of waste. In this day and age, attention to the environment is becoming increasingly important. Drag the waste to the right container and clean it up. And if you did it right? You'll find out soon enough!

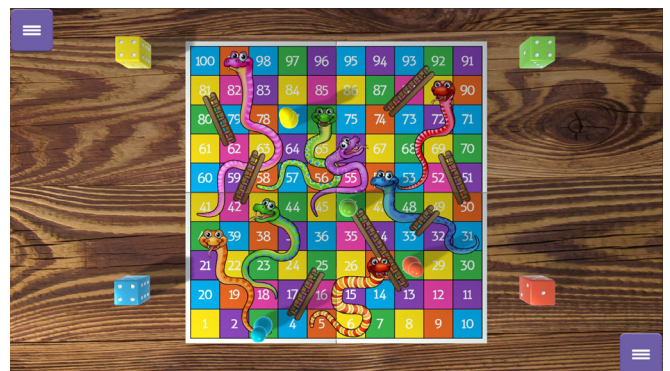

## Shuffleboard

This old Dutch family game is not to be missed! Tap on a stone to start! Hold the stone and slide it towards the goal. Above the entrances is the number of points to be gained if a stone is passed through. Each player has 30 stones; when all stones have been thrown, it is the next player's turn. Can you score the most points? This game can be played with 1 to 4 players.

## Snakes and ladders

This board game can be played with 1 to 4 people, or against the computer. From the menu, you can also choose whether you want to drag the pawns yourself, or let the computer do it for you. If you throw 6, you may throw again! If you land on a square at the bottom of a ladder, the pawn moves up the ladder. If you land on the head of a snake, the pawn moves downwards to the space next to the tail. Be the first to reach 100! At the end of the game, it is important to get exactly the number of dots you have left to get to 100, otherwise the pawn will go backwards.

**TÜV SGS** All our products are inspected, tested and certified by SGS and TÜV.

## Sudoku

This well-known puzzle, for one player, can be played in two difficulty levels. Sudoku is a puzzle consisting of 9 blocks of 3x3 squares. Each square contains a number from 1 to 9. Fill in the puzzle so that every row, every column and every 3x3 block contains the numbers 1 to 9 once. Click anywhere in the puzzle to place a digit, then click the digit of your choice in the column on the top right. A pencil function and an eraser can also be chosen.

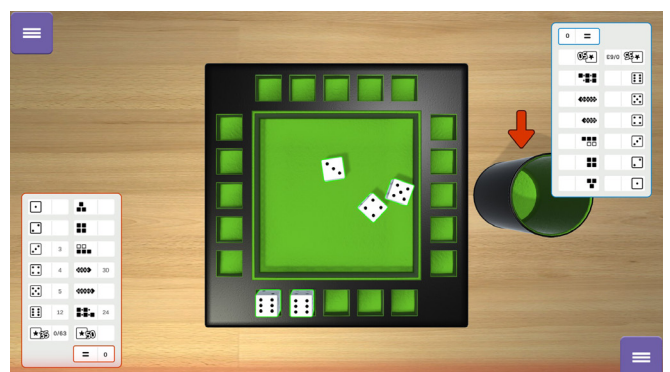

## Whac A Mole

This skill game is played by one player and has two levels of difficulty. Make sure you hit the mole with the hammer as fast as possible when it pops up! You have 30 seconds to hit all the moles! If you hit the mole, you will receive 10 points. If you miss, you will lose 5 points.

## Full house

This game can be played with 1 to 4 people, or against the computer. The dice are thrown on the board. Choose the dice that are to stay and tap the cup to re-roll the others. The card shows the scoring for each turn. You can indicate which points should be scored. Please note that each box must be filled in once. If no points can be given, a box can be checked off.
